

DOOR FRAME METAL DETECTOR (DFMD)

GLS-1900 DFM2

U.V. Techno is an eminent organization, which is engaged in manufacturing, supplying and exporting high grade **Door Frame Metal Detector** Offered detectors are widely used in the all areas such as in defense, customs and border control, courts, school security, malls, railway stations and airports. These detectors help in maintaining proper safety in the areas.

Product Specification

Sensitivity	Up-to 200 sensitivity levels for precise detection of target objects.
Detection Zones	Multiple detection zones
Indicators	Composite zone indicator Adjustable audio indication LED bar graph signal strength indicator High bright LED zone display on front & back of side panels. Large LED display for counting and message annunciation.
Number of Horizontal Detection Zones covering full Height	8
Inputs	RS-232 for Interface
Walk-through Arch	PVC
Provided Wheels for easy mobility	Yes, Optional
Provided with a floor panel to attach both side panels to give stability & rigidity to the structure	Yes, No
Ramp over the floor panel - Covered with synthetic carpet	Yes
Water/Weather Proof	Yes
Provided with a floor panel to attach both side panels to give stability & rigidity to the structure	Yes, Optional
Bar Display To Indicate Metal Location W R T Height On Person	Yes
Traffic Counter	Microcontroller based intelligent LCD counter to indicate in, out with algebraic sum of the traffic.
Operating Temp	-10°C to +50°C
Humidity	0-100%, non-condensation
Power Source	In DFMD have pre installed SMPS 90-270V AC & 12V/7AH battery seamless battery changeover in case of mains failure Batteries are internally & automatically charged during operation.
Battery/Battery Backup	In DFMD Integral 12V 7AH Re-chargeable maintenance free internal battery with built- in charger to cope with Power failures of over Up to - 12 hours.
Ruggedized polypropylene shock proof container compliant to IP 65	Yes
Warranty	3 Years
Testing	From NABL accredited lab
